

# Strong Stable Power Supply

Battery pack parameters(OEM is acceptable)	
Product model / specification	51.2V150Ah/25.9V300Ah
Battery type	Lithium iron phosphate
Nominal voltage	25.9V (51.2V)
System energy	7.7kWh
Communication method	RS485/CAN
Degree of protection	IP67
Operating temperature range	-20~55°C
Continuous maximum charging current	50A/100A
Continuous maximum discharge current	100A/150A
Cycle life	3000times, normal atmospheric temperature
Note	Product size, voltage and capacity can be customized according to customer needs
